

# Package Information

Award Winning Storytelling Videography

# My Style

I capture your wedding day in the most unobtrusive way

My film style is storytelling, I prefer to capture things as and when they happen, natural and candid. Your wedding is a live event and I love to capture the essence of that.

I love a romantic edit, your films will be documentary style, storytelling, timeless, emotion evoking and you might even shed a tear or two.

# Your Story

I offer one package for weddings based on what I think provides you with everything you would want captured and to re-live from your day.

This package can be tailored to suit your own preference and budget with bolt on options available as well as having the option to scale back certain elements.
